AMERICAN ART ASSOCIATION,
Madison Avenue and 57th Street,
New York City, N. Y.

DEAR SIRs: The collection of antique American hooked rugs which I have consigned to you for sale is, I believe, not only an authoritative representation of the various types which are rarest from a collector's standpoint, but an exhibit which is in the nature of a display of art.

Recently we have perceived that, freed from the trammels of realism, form and rhythm are more easily achieved. Primitive art has claimed our admiration and we have gone from Tibet to South Africa by way of the South Seas to seek it. With a touch of pride therefore, we discover on this continent an art primitive in its force and naïve character, yet possessing a piquant trace of sophistication expressing exactly the culture of our ancestors, who had European traditions yet lacked European training. This art is most clearly exemplified in the hooked rug. Here the freedom of the technique gave easy play to the imaginations of our foremothers, and all unconsciously they produced a priceless record of their artistic stirrings which is of prime interest to their descendants. With pleasure, too, we perceive that they were artists; strangely enough, in early American hooked rugs we discover color worthy of a Gauguin and drawing of naïve charm recalling Matisse, while there are fruit pieces which appear a premonition of Cézanne.

In animal rugs especially, one meets a force of conception breaking the bonds of ignorance and giving a charm and life to the subject which more realistic creations might envy.

Full of grace, the floral subjects, some of them dating as late as the mid-Victorian period, are uniquely suitable in American homes and seem to prove that our national love of the beautiful is not of recent origin.

Houses hooked on rugs are very rare, due no doubt to the difficulty of drawing involved, while perhaps the most highly prized of all types is the Marine rug, which speaks of a period when the life of the New World was lived almost entirely on wave-beaten shores. One may imagine the captain of a vessel drawing a picture of his craft which his wife dutifully hooked during his absences.

Of first importance to the collector is originality of design, and he appreciates especially the primitive conception; also the presence of hand-woven material or hand-spun wool—spun on a spinning wheel

—and the use of root or vegetable dyes, which features act as guarantees that specimens containing them belong to the earliest periods.

In the present collection it may be safely stated that every rug is of an original design, and a very large proportion of them contain hand-woven material or hand-spun wool. Particular attention should be called to the very large rug, which, because it is practically entirely composed of wool spun on a wheel and also because of the fantastic and beautiful design, is probably unique. The collection is also rich in such rare subjects as animals and houses, while there are four Marine rugs and a ship's wheel.

Due to the great age of these rugs, some of them show unavoidable signs of wear, but you will notice that only a small number of them have been repaired. It is well for the collector to bear in mind that a hooked rug is practically indestructible and that it may be repaired most perfectly, as the restored specimens conclusively prove. In the case of minor imperfections, no mention has been made of them in the catalogue, but in every case where a rug was actually torn or frayed it has been noted.

The rapidly increasing scarcity of these genuine rugs, due to the great favor they have obtained, has made the collecting of such specimens so difficult a task that it is not probable it could be repeated. Only a lifelong interest in the subject has enabled me to make this collection; and to judge from the extent of the territory ransacked and the immense difficulty of discovering the genuine rugs because of the prevalence, at a later period, of stamped designed ones which supplanted the older types and are valueless, I am led to conclude that the possessors of fine early specimens will shortly have more reason to congratulate themselves than they perhaps at present realize.

I may add, in conclusion, that the number of fine originally designed rugs make this collection remarkable, especially in view of the fact that hooked rugs are perhaps, artistically speaking, our most precious national heritage.

Yours very sincerely,

ELIZABETH WAUGH.

PROVINCETOWN, MASS., *April 3, 1923.*

CONDITIONS OF SALE

I. Rejection of bids: Any bid which is not commensurate with the value of the article offered or which is merely a nominal or fractional advance may be rejected by the auctioneer if in his judgment such bid would be likely to affect the sale injuriously.

II. The buyer: The highest bidder shall be the buyer, and if any dispute arises between two or more bidders, the auctioneer shall either decide the same or put up for re-sale the lot so in dispute.

III. Identification and part payment by buyer: The name of the buyer of each lot shall be given immediately on the sale thereof, and when so required, each buyer shall sign a card giving the lot number, amount for which sold, and his or her name and address.

Payment at the actual time of the sale shall be made of all or such part of the purchase prices as may be required.

If the two foregoing conditions are not complied with, the lot or lots so purchased may at the option of the auctioneer be put up again and re-sold.

IV. Risk after purchase: Title passes upon the fall of the auctioneer's hammer, and thereafter neither the consignor nor the Association is responsible for the loss or any damage to any article occasioned by theft, fire, breakage or any other cause.

V. Delivery of purchases: Delivery of any purchases will be made only upon payment of the total amount due for all purchases at the sale.

Deliveries will be made at the place of sale or at the storage warehouse to which purchases may have been removed.

Deliveries at the American Art Galleries will be made only between the hours of 9 A. M. and 1 P. M. on sales' days and on other days—except holidays, when no deliveries will be made—between the hours of 9 A. M. and 5 P. M.

Deliveries at places of sale other than the American Art Galleries will be made only during the forenoon following the day of sale unless by special notice or arrangement to the contrary.

Deliveries at the storage warehouse to which goods may have been sent will be made on any day other than holidays between the hours of 9 and 5.

Deliveries of any purchases of small articles likely to be lost or mislaid may be made at the discretion of the auctioneer during the session of the sale at which they were sold.

VI. Storage in default of prompt payment and calling for goods: Articles not paid for in full and either not called for by the purchaser or delivered upon his or her order by noon of the day following that of the sale will be turned over by the Association to some carter to be carried to and stored in some warehouse until the time of the delivery therefrom to the purchaser, and the cost of such cartage and storage will be charged against the purchaser and the risk of loss or damage occasioned by such removal or storage will be upon the purchaser.

NOTE: The Limited space of the Delivery Rooms of the Association makes the above requirements necessary, and it is not alone for the benefit of the Association, but also for that of its patrons, whose goods otherwise would have to be so crowded as to be subject to damage and loss.

VII. Shipping: Shipping, boxing or wrapping of purchases is a business in which the Association is in no wise engaged, and will not be performed by the Association for purchasers. The Association will, however, afford to purchasers every facility for employing at current and reasonable rates carriers and packers; doing so, however, without any assumption of responsibility on its part for the acts and charges of the parties engaged for such service.

VIII. Guaranty: The Association exercises great care to catalogue every lot correctly and endeavors therein and also at the actual time of sale to point out any error, defect or imperfection, but guaranty is not made either by the owner or the Association of the correctness of the description, genuineness, authenticity or condition of any lot and no sale will be set aside on account of any incorrectness, error of cataloguing or imperfection not noted or pointed out. Every lot is sold "as is" and without recourse.

Every lot is on public exhibition one or more days prior to its sale, and the Association will give consideration to the opinion of any trustworthy expert to the effect that any lot has been incorrectly catalogued and in its judgment may thereafter sell the lot as catalogued or make mention of the opinion of such expert, who thereby will become responsible for such damage as might result were his opinion without foundation.

IX. Buying on order: Buying or bidding by the Association for responsible parties on orders transmitted to it by mail, telegraph or telephone will be faithfully attended to without charge or commission. Any purchases so made will be subject to the foregoing conditions of sale except that, in the event of a purchase of a lot of one or more books by or for a purchaser who has not through himself or his agent been present at the exhibition or sale, the Association will permit such lot to be returned within ten days from the date of sale and the purchase money will be refunded if the lot in any manner differs from its catalogue description.

Orders for execution by the Association should be written and given with such plainness as to leave no room for misunderstanding. Not only should the lot number be given, but also the title, and bids should be stated to be so much for the lot, and when the lot consists of one or more volumes of books or objects of art, the bid per volume or piece should also be stated. If the one transmitting the order is unknown to the Association, a deposit should be sent or references submitted. Shipping directions should also be given.

Priced Catalogues: Priced copies of the catalogue or any session thereof, will be furnished by the Association at charges commensurate with the duties involved in copying the necessary information from the records of the Association.

SECOND AND LAST AFTERNOON'S SALE
TUESDAY, MAY 8, 1923

CONDITIONS OF SALE

I. Rejection of bids: Any bid which is not commensurate with the value of the article offered or which is merely a nominal or fractional advance may be rejected by the auctioneer if in his judgment such bid would be likely to affect the sale injuriously.

II. The buyer: The highest bidder shall be the buyer, and if any dispute arises between two or more bidders, the auctioneer shall either decide the same or put up for re-sale the lot so in dispute.

III. Identification and part payment by buyer: The name of the buyer of each lot shall be given immediately on the sale thereof, and when so required, each buyer shall sign a card giving the lot number, amount for which sold, and his or her name and address.

Payment at the actual time of the sale shall be made of all or such part of the purchase prices as may be required.

If the two foregoing conditions are not complied with, the lot or lots so purchased may at the option of the auctioneer be put up again and re-sold.

IV. Risk after purchase: Title passes upon the fall of the auctioneer's hammer, and thereafter neither the consignor nor the Association is responsible for the loss or any damage to any article occasioned by theft, fire, breakage or any other cause.

V. Delivery of purchases: Delivery of any purchases will be made only upon payment of the total amount due for all purchases at the sale.

Deliveries will be made at the place of sale or at the storage warehouse to which purchases may have been removed.

Deliveries at the American Art Galleries will be made only between the hours of 9 A. M. and 1 P. M. on sales' days and on other days—except holidays, when no deliveries will be made—between the hours of 9 A. M. and 5 P. M.

Deliveries at places of sale other than the American Art Galleries will be made only during the forenoon following the day of sale unless by special notice or arrangement to the contrary.

Deliveries at the storage warehouse to which goods may have been sent will be made on any day other than holidays between the hours of 9 and 5.

Deliveries of any purchases of small articles likely to be lost or mislaid may be made at the discretion of the auctioneer during the session of the sale at which they were sold.

VI. Storage in default of prompt payment and calling for goods: Articles not paid for in full and either not called for by the purchaser or delivered upon his or her order by noon of the day following that of the sale will be turned over by the Association to some carter to be carried to and stored in some warehouse until the time of the delivery therefrom to the purchaser, and the cost of such cartage and storage will be charged against the purchaser and the risk of loss or damage occasioned by such removal or storage will be upon the purchaser.

NOTE: The Limited space of the Delivery Rooms of the Association makes the above requirements necessary, and it is not alone for the benefit of the Association, but also for that of its patrons, whose goods otherwise would have to be so crowded as to be subject to damage and loss.

VII. Shipping: Shipping, boxing or wrapping of purchases is a business in which the Association is in no wise engaged, and will not be performed by the Association for purchasers. The Association will, however, afford to purchasers every facility for employing at current and reasonable rates carriers and packers; doing so, however, without any assumption of responsibility on its part for the acts and charges of the parties engaged for such service.

VIII. Guaranty: The Association exercises great care to catalogue every lot correctly and endeavors therein and also at the actual time of sale to point out any error, defect or imperfection, but guaranty is not made either by the owner or the Association of the correctness of the description, genuineness, authenticity or condition of any lot and no sale will be set aside on account of any incorrectness, error of cataloguing or imperfection not noted or pointed out. Every lot is sold "as is" and without recourse.

Every lot is on public exhibition one or more days prior to its sale, and the Association will give consideration to the opinion of any trustworthy expert to the effect that any lot has been incorrectly catalogued and in its judgment may thereafter sell the lot as catalogued or make mention of the opinion of such expert, who thereby will become responsible for such damage as might result were his opinion without foundation.

IX. Buying on order: Buying or bidding by the Association for responsible parties on orders transmitted to it by mail, telegraph or telephone will be faithfully attended to without charge or commission. Any purchases so made will be subject to the foregoing conditions of sale except that, in the event of a purchase of a lot of one or more books by or for a purchaser who has not through himself or his agent been present at the exhibition or sale, the Association will permit such lot to be returned within ten days from the date of sale and the purchase money will be refunded if the lot in any manner differs from its catalogue description.

Orders for execution by the Association should be written and given with such plainness as to leave no room for misunderstanding. Not only should the lot number be given, but also the title, and bids should be stated to be so much for the lot, and when the lot consists of one or more volumes of books or objects of art, the bid per volume or piece should also be stated. If the one transmitting the order is unknown to the Association, a deposit should be sent or references submitted. Shipping directions should also be given.

Priced Catalogues: Priced copies of the catalogue or any session thereof, will be furnished by the Association at charges commensurate with the duties involved in copying the necessary information from the records of the Association.
